HONGEONG, AUGUST 25TH, 1894. THE Taipingshin Resumption Bill, to be introduced in the Legislative Council next left at 6.80 pm. for Houghong via Shanghai. week, will, we believe, as already aunounced; with the property thereafter as may be thought most expedient When the property has finally been resumed it is probable Church to-morrow will be held at 4.45 instead that a strong and representative commission of at 5 p.m. will be appointed to decide how each individual block shall be trained, whether it shall be demolished, altered, or allowed to remain at Yokehams, and leaves for this gort to-day, at in its present condition. There are very few of the houses to which the latter decision come under the second category. The plan of reconstruction prepared by the Public Works Department contemplated the entire sweeping of the district-houses, roads

sewers, and everything-and an entensive scheme of levelling so as to ereate a series of termors, something after the style of the Beldies Terrace property, only on a much larger scale. Looking at the matter from a sanitary point of view solely this would be an excellent arrangement, as it would do away entirely with basements; but it would be vastly expensive and after the scheme had been carried out the property, would be much less valuable than nuder the present arrangement, under which the streets follow the natural contour of the hill, rendering all the houses of easy access. The present streets are in excellent condition, many of them have been reformed during the last few years and they are all well concreted and provided with sewerage and storm water drainage. The difficulty is, while the streets run as at present, to either get vid of the basements or to admit sufficient light and air to from the south reports that the experienced exhaustively with the subject a vast amount of render them habitable. These basements are in the majority of instances no better than caves excavated out of the bill side, the run down trans. Wokobima and inlight is from the front, with in some cases a tinged displyand showely all day, but in the letter B informed ma the word compying over very small grating at the back. Looking evening the sky commenced to clear, and from 8 eight pages with some two hundred entries) being split up into eight or ten cubicles, so passed at 10.26 p.m. the wind abilted from Both that an apartment absolutely unfit for shifted to NE, blowing a strong gala with know that the ancient abacdoped gold workings human residence has been occupied by over heavy squalle and blinding showers of in the interior of this state are so numerous fifty individuals. No repetition of this sort rain. The versa, labourismy bearing that Mr. Knagge one of the discoverers, in his of thing can be allowed, and if it be neces- she was hove to. At 6 pen on Friday the wind report of them to Sir Frederick Weld, said they sary to demolish the whole of the property to backed from porth matricipand north found, situated for in the jungle, a bill perget rid of it that drastic measure will have notil at midnight it marked 29.02 at which time recording for miles and dog so closely logother, to be taken. But in some cases it is said it was blowing a hard gain with derritoring sales that there was room for only one man to walk the back lines might be gut down to the and big dangerous cross seem Ale 140 and level of the basement, admitting a sufficiency and the wind went round to the west, the one of these bits for less than \$0,000, and there of light and air, and in cases where the squalle then decreased in feron but years are not only hundreds but thousands of them. lange are excessively narrow or the houses rain continued. At 4 am, the wind was kitchens on one side or the other would afford afterwards, at 5.10 am; the stores subject they were fed in this dense jungle and what be sufficient width. In cases where nothing of sufficiently to permit the ve sel to etter her this kind can be done, and the basements the voyage was soptimed, the Victoria spring for over Possibly the land at that time was Building Aut was passed that legislation was been effected by it. their occupation of this houses must be pullplan. It is urged that, mothing in the may insentive genus of a sometimist in the mater and the mich the impulse to bolts and bars would prevent occupation. Tokyo. A sheet of gold as wide as a specient, instant and prevent occupation. Tokyo. A sheet of gold as wide as a pustomed, instant and or actions of others is some ed down and reconstructed on a lifferent that the people would make an opening in down if need be. If that argument were good contract and leaves one of his valuable metal adopted the only alternative to pulling the house down would be to fill the basement with rubble or earth-levelling up the site in fact—but that would involve the erection of retaining walls and be expensive. But whatever measures be adopted with regard to the buildings, the prevention of evercrowding is a problem which will tas the ingenuity of the Government to deal with. A large staff of inspectors may be appointed, but enis custodiet ipsos quetodes. It is said that the owner of one of the blooks in Taipingshau was brought up at the

Police Court a few years ago and charges either under the overgrowding clause of the Public Health Act or under some provision of the Building Ordinance, was fined, and was warned that if he was brought up again he would be fined lifty dollars for each day the offence complained of continued. He neve was brought up again and, when the house house visitation was instituted in course quence of the plague his premises were found n identically the same condition as when the fine was inflicted some years previously The inference is that bribery had been at work, There is always more or less scandal alleged to be amassed by subordinate officials, but it has never been found possible to cetablish proof of the vague charges made. Hore, however, we have a specific charge which admits of investigation and which ought to be sifted to the bottom. But to return to the question of Taipingshan and its reconstruction. While there are some houses which may possibly be allowed to remain there are others which must unques Sir J. Blundell Maple's b o Gangway, by tionably be demolished, as they are little better than hovels and are not, worth alteration or improvement. On the sites occupied by these a much superior class of dwellings will as a matter of course be erented; and in dealing with difficult sites the plan of the House Newmarket. Land Investment Company's Chinese houses! below Ripon Terrace might with advantage betaken as a model. But the feeling in favour of total demolition and riconstruction over the whole area, which was so strong a short time ago, seems now to have undergone some modification, and the idea of sparing such of the blocks, as can be readily placed in a sanitary condition finds favour. The avoidance of waste is of the more importance imamuch as the task before the Government is not confined to Taipingshan, there being a large amount of property both in Seyingpoon and Wanchai Lord Marous Beresford's be St. Jude, by St. with reference to which the powers of sumption will have to be exercised, with the attendant expenditure of large sums of the public money. No doubt the credit of the artisachuald be writ on on one, coluny is good enough to secure a loan of No anonyman sty signed communications that have, whatever amount may be required, but borrowing is not a policy to be indulged in reck-

Barrot) 2 and it is where masses of people congrugate area, leaving the Government free to deal be expected here on or about Wednesday, the Mr. J. Darward och a Medic, by Hogic scope that this demand on the State for protection has individual moral, and physical uncleanness are there most strongly concentrated. It may be observed as a onrious fact that the first marderer was the first to build a city. The State, if it cannot purify the cultied tenements after years neglect, can at least provent further pollution where it neglects this duty the penalty of such neglect; is sure to follow in epidemiss and ads

pension of commerce. Formerly inceuse and holy water were the panacean against postilence and disease: now sanitary science, while it does not resist harmless observances, provides chloring gas and powerful deodorizers; brooms for the filth and water for the draine Our. Chinese neighbours have processions of their go la with their tuwdry parapherualis intended as an out dote for disease; our modern enlightenment alsol tries processions, but they are of sinitary officers armed with every requisite for the removal of filth. That " Cleapliness is next to Godligess is a well known axiom embodied in Mosaio law. and an better illustration of the value of clean iners can be found than the immunity of the

Jews from opidamie diseases while they followed the detailed hygienic statutes of Moses. Twenty centuries ago Hippocrates, himself remarkable instance of the benefits of his teachings indvised a friend : when you have colected the oily that is to be your residence consider well its nituation how it lies to the winds and the rising oun ; consider also the waters which the inhabitants use, whether marshy or soft. hard and running from rocky situations. Also the ground, whether paked and defloi ut water, or woodel and well watered, also the mode in which the lababitants live, whether they are foud of acting and drinking to excess or are fond of exercise and labour. From these things you must preced to investigate every-

" From these Brings " must all our prosper! distress arise and such words—though twent conturies all-are pregnant with instruction to the present day. Neglect of proper anitary laws in the nineteenth century is the more emphasized when we recall the conditions gation was carried on as in our best modera nethods. Notwithstanding these facts it was not until after the visitation of cholera in 1832 that hygienic reform was started in England calminating in 1875 in the well known Public Houlth Act of that your which has resulted in such marvellone improvements in raral and urban England, where, dispite the climitic vague ries, the vital statistics now compare favourably with the most favoured climatic regions. In any system of sanitation expendents and Ruesswork should have no place where so much experience and stern scientific knowledge

evailable, such knowledge being rational and out this cold wenther. Ever if they do not not empirical. But as they had no tents they had to sit come of them, must I fear, remain a mystery It was thirty five years after the Mutropoliton uppl and Linet year he never took a roce but lunder the barning and on the grass while

the Japanese troops were at first confused, but Capthin Matson iki at once ordered them to majob forward and the triops onconcaged by the order, rached at the Chinese with a shout

and bore thom down. In this skirmish, on the Japaneso side, six men were killed by the enemy, 17 or 1 were drowned and 15 or 16 were wounded. though the fight had only lasted fifteen minutes. The Chines Hal leaving behind 18 or 19 killed aming whom was an officer, and two prisoners. All was then quiet in two hours. At 8 n'alock. the Japanese left wing op and fire; but the Chi ness did not respond notil the Japanese had fired fourteen or ditteen rounds. Then began the fight in sarnest The two wings attacked the Chinese at the lama time. The Japanese charged with a shout upon the enemy, and each charge off oted a new longement. The Chinese begun to retreat towards Asen. At 7.10, that is after an boar and a bull the battle win over; and quiet was restorated It appears that the Chinese Janeral She had at first come to detand this outpost at Salkwan with 1:000 troops; but hearing that 1,500 more fromps had been brought from \san ander General She ou the 27th and 23th. They had fatended. in case of differt, in ratreat to Ten en a garrisoned town, about 25 mil-s south-east of Selkwan but the Lapanese left wing attacked them from the east to drive their cetting up their gues immeditaly round their team showed their ignorance of tactics. for if their tents were ast on fire by asnuou. they would not only his anable to extinguish it, but they could not have remained within the line of their guns. At the first the Chinese fought outside the gan parapets, with the intention evidently of taking relugothere if they were beaten back. But the sudden charges of the Japaness gave them no ti me to you within the parap its. hay flad, leaving their flags biblud. Oan high bill to the Life of the main camp was a thick wood within which the Chinese had their cannon: As it commanded the J paness army, which ap-

advanced cannon were set with palicades round he parapet. They were broken down by the Japanese; and 4 or 6 artillery officers and over fon men were killed. The Japan se officers praise highly the skill of the Chinese artillers at this first General Oshima and Lieut Colonel Fukushima had a narrow escapa. The Chimese loss may be computed at over 100 killed and 400 wounded, making a total of over 500. on fighting and rofusid modical attention notil the bittle was over several Chinese were taken prisoners; the Chinese wanded madog Europ man for his suce safal suppression

promoted it without suspecting any camp within,

a sudden volley of candon and small-arms took

the latter by surprise. This camp hald out

longest. Here too bowever, several fligs was

found Round the camp of the Chicase artil-

lary against which the Japanees right wing

parent ly office a were also found on the real on which were also seen continuous drops of blood. The Japinese army pursued the Chinese or twelve miles to Yoran, a little village abou Ave miles from Asen. As a Chinese attack way expected that night a strict outlook was kept but the night proced quietly. At o olook next morning (30th), the army marched upon Agan. It was expected that the Chinese rould make a desperate stand at Asan, and there was a general boding that the storming of Asin would be attended with herer lowest but on arrival there, the army found to its estonishment that the tranches Word descried with many hundreds of thousands of rounds of pard ir and 600 or 700 bigs (containing 7 to each of rice. They had all fled to Koshu Fhere were on'y 50 remaining behind at Asan Phese had attempted a night attack on the ontpost, but had been repulsed. A Chao express says that on the 5th, the Japanese army returned to Bruson after the

rictory at Asan. On the same evening the King entertained all the Japruese officers at a soires. The Chinese troops, who were outed ut that | Saikwan, appear to be fi sing homeward through Joon! .- Japan Gazette.

KEATING'S LOZENGES." COZENGES Ask thraighout the world, in any coongiving relief, so certain to care, and yet the most

"A TERRIBLE COUGH." " 91. Commercial Con t, Pacchum, July 1 !. "Dear Sie, I am a poor hand at expensing tay feelings, but I should like to thank you. Your feelings, but I should like to thank you. Your manages have done wonders in relieving my terrible cours. Since I had the operation of Frachesto as (the same as the late Emperor of Germany, and the like him, thank (lod I am still alive) performed at St. Lightholomew's Hospital, no one could possibly have had a more violent cough; it was so but at times that it quite exhausted me. The manue, which was very copious and hard, has been softened, and I have been able to get rid of it without difficulty.—I am, sir, yours truly J. HILL. TITTERLY UNRIVALLED.

UTTERLY UNRIVALLED.
The abord speaks for itself. From stript inquiry it appears that the benefit from using Kenting's Cough Lossuges is understated. The operation was a specially severe one, and was performed by the appointment. Dr. H. T. Butlin, of St. Bartholom wis Hospital, bines the operation the operation the lief is the one of these Losenges. So successful are they that one affords immediate bounds, although from the nature of the ones the throat irritation is WEIGHT IN GOLD.

Under date Sept. 5th, 1931, Mr. Hill again writes, I should long sines have been day! but for your Lozenges they are worth their weight in gold. I will gladly see and tall anyone what a splendid cough remedy they are. Resting's Cough Lozenges, the narivalled remady for CQUEES, to 1 RSENESS, and THROAT TROU-nLES, are sold in Sottles by all Chemists. [1415]

THE LATEST INVENTION. CEULUS PATENT OKONITE TRUSSES TO D. Herola (Bapture) are in all respents the most perfect and unity instruments ever offered to the public as mechanical supports and remedil ap-pli speed for any form of supture or internal prolupes These transpiers of the best possible manufacture; they are self-adjusting light, and comfortable. The external correct being so aplutely covered with a non-absorbant material. (Okonite) transfers them absolutely impervious to moisture, perspire ion, and the sold storetions of the skin, amount as or get out of order, have no outspects without pain or unine 13.—Ceapral Police States 70.—Explored. Real pressures has neither and states a lovers, nor our pressures has neither and states a lovers, nor our pressures has neither and states a lovers, nor our pressures has neither and states a lovers, nor our pressures has neither and states a lovers, nor our pressures has neither and states and states and states of a lover of the lovers securely any size protusion without pain or unine most effective we have ever no ice ! DICTIONARY. WITH THE PUST! AND MANDAHIN PRONUNCIATION. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong. for comprehensiveness and practical service this Work stands unrivalled. All the new words which the Chinese have of latey ears been compelled to coin to express the numerous of jects in machinery, photography, telegraphy, and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extense. Early and every word is fully illustrated and explained, forming exercises for students of a most instructive asture. Both the Court and Punti pronunciations are given the accents being carefully marked on the best. principle hitherto attained. The typography displays the success of an attempt to make the Chineso and English type correspond in the size of body, thereby effecting a vast economy of apace, achieving a clearness not praviously attained, and dispensing with those vust margins and vacant spaces which have herelafore charactorized Chinese publications. To illustrate the vast scope of the work the following facts are submitted for consideration:
